1. What is your connection or interest in this case? \* For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

My family buys our energy from Dominion, so as ratepayers, we are concerned about the proposals being heard at this Commission hearing.

2. Please give a concise statement of your protest: \* (This section must be completed. Attach additional information if necessary.)

Making solar energy more expensive for ratepayers is immoral and irrational. It will cause fewer people to install solar panels on their property and people who currently use solar energy might have to stop if they cannot afford higher rates. This will cause solar installers and contractors to lose their jobs. Dominion's proposal hurts the planet, it hurts ratepayers, and it hurts people who will lose their jobs as a result. The only entity that will benefit is Dominion because they will be making more money than they already are. The livelihoods of our workers and the future of our planet are more important than the wallets of Dominion's top executives.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? \*

No, I will be in school during the hearings.
